

Phoseon Technology to Host UV LED Open House

Register and get the chance to tour Phoseon's world-class manufacturing facility

Hillsboro, Oregon (July 21, 2015) - Phoseon Technology will host an open house at their Hillsboro, Oregon facility that will focus on UV LED technology and Phoseon's capabilities to supply this technology to a growing market. This half-day educational event will take place on Tuesday, August 11 from 12:00 -

5:00 pm (lunch will be provided). Phoseon will offer informational sessions including UV LED basics, the differentiators between various UV LED lamp implementations, and the factors essential to success when deploying this innovative technology. Visitors will have a chance to tour Phoseon's world-class manufacturing facility and also get the opportunity to meet the management, R&D, engineering, and manufacturing teams. Phoseon will demonstrate leading UV LED curing solutions and will be available to discuss specific applications with attendees.

Phoseon UV LED technology offers advanced capabilities, operating economics and environmental advantages - and it is available today. If you would like to learn more about the benefits of UV LED, you will not want to miss this opportunity to hear from, and interact directly, with the topic experts. This event is targeted toward owners, decision makers, and management of printing and manufacturing operations striving to learn more about the benefits of transitioning to UV LED curing.

This open house is **FREE OF CHARGE** and will be filled on a first come, first reserved basis (space is limited). Phoseon reserves the right to restrict attendance to end users and industry partners.

To register for the open house, visit <http://www.phoseon.com/uv-led-open-house>.

About Phoseon Technology

In 2002, Phoseon Technology pioneered the use of LED technology for UV curing applications. As the world leader in UV LED curing, Phoseon provides patented LED technology to deliver rugged, high performance products for application specific solutions. The Company is focused 100% on LED technology and provides worldwide sales and support capabilities.
