

## Press Release

### Phoseon Technology Exhibits LED Curing Solutions at INFO\*FLEX 2017

*Visit the Phoseon booth 835 to learn more about LED curing for printing applications*

Hillsboro, Oregon (April 10, 2017) - Phoseon will showcase the latest UV LED curing solutions for printing applications at the upcoming INFO\*FLEX event in Phoenix, AZ. Visit the Phoseon exhibit, at booth number 835, to learn how Phoseon LED technology is a perfect fit for printing applications due to the compact size, ease of integration, and high intensity output achieved through optimized LED thermal management. Users of Phoseon LED curing systems can process a variety of materials, including thin and heat-sensitive substrates, at maximum production speeds with low-input power.

*FirePower™ FP501 Light Source*

INFO\*FLEX, sponsored by FTA (Flexographic Technical Association) will take place at the Phoenix Convention Center on May 1-2 in Phoenix, AZ. It will showcase a wide variety of industry-related equipment for label, screen and inkjet printers, manufacturing machinery, drying and curing equipment associated with this sector.

#### About Phoseon Technology

In 2002, Phoseon Technology pioneered the use of LED technology for UV curing applications, and has recently expanded into Life Sciences. As the world leader in providing UV LED solutions, Phoseon engineers patented LED technology to deliver rugged, high-performance products for application specific needs. The company is focused 100% on LED technology and provides worldwide sales and support capabilities.
