

Eastern Coatings Show 2017

Press Release

Phoseon Technology Exhibits LED Curing Solutions at the Eastern Coatings Show

*Visit Phoseon at booth number 231 to learn more about
LED curing for coating applications*

Hillsboro, Oregon (April 18, 2017) - Phoseon will showcase the latest UV LED curing solutions for coating applications at the upcoming Eastern Coatings Show event in Atlantic City, NJ. Visit the Phoseon exhibit, booth number 231, to learn how Phoseon LED technology is a perfect fit for coating applications due to the compact size, ease of integration, and high intensity output achieved through optimized LED thermal management. Users of Phoseon LED curing systems can process a variety of materials, including thin and heat-sensitive substrates, at maximum production speeds with low-input power.

The Eastern Coatings Show will take place at Harrah's Resort Atlantic City on May 15-17 in Atlantic City, NJ. It will showcase a wide variety of industry-related equipment for label, screen and inkjet printers, manufacturing machinery, drying and curing equipment associated with this sector.

About Phoseon Technology

In 2002, Phoseon Technology pioneered the use of LED technology for UV curing applications, and has recently expanded into Life Sciences. As the world leader in providing UV LED solutions, Phoseon engineers patented LED technology to deliver rugged, high-performance products for application specific needs. The company is focused 100% on LED technology and provides worldwide sales and support capabilities.
