

ProPak Asia 2017

Press Release

Phoseon Technology Exhibits LED Curing Solutions at ProPak Asia 2017

*Visit the Phoseon booth AJ44, Hall 98 to learn more about
LED curing for printing applications*

Hillsboro, Oregon (May 9, 2017) - Phoseon will showcase the latest UV LED curing solutions for printing applications at the upcoming ProPak Asia 2017 event in Bangkok, Thailand. Visit the Phoseon booth at AJ44, Hall 98 to learn how Phoseon LED technology is a perfect fit for printing applications due to the compact size, ease of integration, and high intensity output achieved through optimized LED thermal management. Users of Phoseon LED curing systems can process a variety of materials, including thin and heat-sensitive substrates, at maximum production speeds with low-input power.

ProPak Asia 2017 will take place June 14-17 at the Bangkok International Trade & Exhibition Centre (BITEC) in Bangkok, Thailand. It will showcase a wide variety of industry-related equipment for label, coding, screen and inkjet printers, manufacturing machinery, drying and curing equipment associated with food, drink, pharmaceutical processing & packaging technology.

About Phoseon Technology

In 2002, Phoseon Technology pioneered the use of LED technology for UV curing applications, and has recently expanded into Life Sciences. As the world leader in providing UV LED solutions, Phoseon engineers patented LED technology to deliver rugged, high-performance products for application specific needs. The company is focused 100% on LED technology and provides worldwide sales and support capabilities.
