

European Coating Show 2019

Press Release

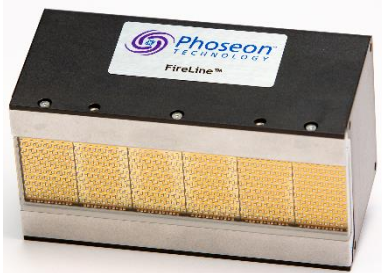

Phoseon Technology Exhibits UV LED Curing Solutions at the European Coating Show 2019

Visit Stand 5-148 to learn more about LED curing for coating applications

Hillsboro, Oregon (March 7, 2019) - Phoseon Technology will showcase the latest UV LED curing solutions for coating applications at the upcoming European Coating Show 2019 in Nuremberg, Germany. Visit the Phoseon exhibit, Stand 5-148, to learn how Phoseon LED technology is a perfect fit for coating applications due to the scalable, compact size and ease of integration. The high intensity output is achieved through optimized LED thermal management. Users of Phoseon LED curing systems can process a variety of materials, including heat-sensitive and thin substrates, at maximum production speeds with low-input power.

Phoseon FireJet™ FJ200,
air-cooled lamp

Phoseon FireJet™ FL440,
water-cooled lamp

European Coating Show 2019 will take place at the Exhibition Centre in Nuremberg, Germany on March 19-20. It will showcase a wide variety of paint, coatings, adhesives, sealants and equipment for coatings-related technology and applications.

About Phoseon Technology

Since 2002, Phoseon Technology pioneered the use of LED technology for Life Sciences and Industrial Curing. Through our relentless innovation, we deliver high performance, reliable and patented LED based solutions. Our strong focus on customer collaboration has resulted in world-wide market leadership position and presence. Phoseon is an ISO9001 certified company manufacturing award winning products that are covered by more than 300 patents worldwide. We uniquely focus 100% on LED technology therefore ensuring superior reliability, business economics, and environmental benefits.
